

TESTIMONIALS

Aleksey Kirichenko, Sales Manager, KRONES:

upakovka is the only trade fair in Russia we take part in. Any trade fair for us is an opportunity to meet our clients. This saves a lot of time, more so in view of the size of Russia. This year the trade fair is good, a lot more fast-paced than last year. One can sense that there is a rebound and more concrete interest in the equipment, more specifically, interest has been shown in innovation products. As part of innovationparc we have made a presentation and the fact that our report has been referred to and further questions have been asked indicates that the information goes in the right direction. There is feedback, so our participation has been worthwhile.
